Subject: Expensive cleanup is bad for people

We need a river cleanup plan that supports our environment and our economy.

A massive cleanup plan for the Willamette is well-meaning. But I'm concerned that it will also come with unintended consequences with big new costs for companies, utilities and their customers (your constituents). We have so many seniors on fixed incomes and over taxed poor people who can't afford higher utility rates.

This is important to me and our community. Please do the right thing and support our economy.

Sincerely,
